

VEHICLE SPECS

We have a large range of bikes & vehicles to suit all your delivery requirements. You must always try and declare the size and weight of any load, at the time of booking so that our team can send a vehicle with the correct capacity. Our guide should help you choose the most suitable vehicle for your load. Please note that these are the maximum we can carry on each vehicle. We will also need to know, at the time of booking, about any insurance requirements you may have.
